Themes in literature are often varied and hidden. Sometimes you can get through an entire book and not realize what the author meant. However, this is a good basic list that you can build from. Remember that some books have multiple themes. Beauty of simplicity Capitalism - effect on the individual Change of power - necessity Change versus tradition Chaos and order Character - destruction, building up Circle of life Coming of age Communication - verbal and nonverbal Companionship as salvation Convention and rebellion Dangers of ignorance Darkness and light Death - inevitable or tragedy Desire to escape Destruction of beauty Disillusionment and dreams Displacement Empowerment Emptiness of attaining false dream Everlasting love Evils of racism Facing darkness Facing reality Fading beauty Faith versus doubt Family - blessing or curse Fate and free will Fear of failure Female roles Fulfillment Good versus bad Greed as downfall Growing up - pain or pleasure Hazards of passing judgment Heartbreak of betrayal Heroism - real and perceived Hierarchy in nature Identity crisis Illusion of power Immortality Individual versus society Inner versus outer strength Injustice Isolation Solationism - hazards Knowledge versus ignorance Loneliness as destructive force Losing hope Loss of innocence Lost honor Lost love Love and sacrifice Man against nature Manipulation Materialism as downfall Motherhood Names - power and significance Nationalism - complications Nature as beauty Necessity of work Oppression of women Optimism - power or folly Overcoming - fear, weakness, vice Patriotism - positive side or complications Power and corruption Power of silence Power of tradition Power of wealth Power of words Pride and downfall Progress - real or illusion Quest for discovery Quest for power Rebirth Reunion Role of men Role of Religion - virtue or hypocrisy Role of women Self - inner and outer Self-awareness Self-preservation Self-reliance Social mobility Technology in society - good or bad Temporary nature of physical beauty Temptation and destruction Totalitarianism Vanity as downfall Vulnerability of the meek Vulnerability of the strong War - glory, necessity, pain, tragedy Will to survive Wisdom of experience Working class struggles Youth and beauty Movies Movies generally have one or two themes, but not many more. Now, Ms. Marvel directors, Adil El Arbi and Bilall Fallah have revealed their reaction to the finale's plot twist, which introduced the concept of mutants into the MCU, thus teasing the X-Men's debut. The only other time the MCU has incorporated or even mentioned mutants was through the classic X-Men '97 theme song, which happened to play briefly during the entire finale scene. This singular scene is a huge moment for the future of mutants, given it's the first confirmation that they exist in the Earth-616 MCU timeline after all. However, hardcore MCU fans will also know that technically the first tease of mutant activity was featured in Doctor Strange in the Multiverse of Madness. The film explored an alternate version of reality in which Charles Xavier ends up leading the Illuminati. This decision to transform Kamala into a mutant was a big deviation from the original comic book source material.The newfound sense of creative direction and risks were something that became a huge topic of debate amongst fans in anticipation of the Ms. Marvel series' finale. A big percentage of fans dished out criticism to Kevin Feige for further perpetuating the erasure and lack of representation of Inhumans in the MCU. On the other hand, Ms. Marvel star Iman Vellani retaliated back, expressing that she feels as though her character's newfound mutant identity does some-what connect to the original version found in the Ms. Marvel comics. Now, the directors are taking a moment to reflect on what it felt like to take that gigantic creative leap forward. In a recent interview with TVLine, Arbi and Fallah confess that they were actually in the dark when it came to the finale's twist - that is until they came across screenwriters Will Dunn, A.C. Bradley, and Matthew Chauncey's script. However, even after taking the time to devour, read, and analyze the script, the directing duo claimed they still had no idea where the mutant storyline was headed or how important it would be down the line. Arbi and Fallah revealed that only Feige knows what Kamala's fate will be after the shocking introduction of mutants into the MCU. "That was the best kept secret of the whole show. We didn't even know about it until we suddenly had a script," the duo shared. "So, when we had it, we asked, "What's that about? What's going to happen?" Kevin Feige would say, "Just shoot this, put the little music on and that's that - should you be part of the future of Ms. Marvel, then you'll know a little bit more." Kevin Feige has the master plan, he's the only one who knows." Given the glowing success of Ms. Marvel, it's quite obvious why Feige would go to such lengths to protect any spoilers - so much so that he wouldn't even let the directors in on the surprise until the very last minute. The Ms. Marvel finale's mutant plot twist has a much greater purpose than just serving as a shock for fans of Ms. Marvel. It seems as though this news will greatly affect the entirety of the MCU's future and what it will hold, further expanding its realm of possibilities. Although season 2 of Ms. Marvel has yet to be confirmed and may never happen given the show was intended to just be a miniseries, Kamala Khan has without a doubt left an impact on the MCU. As for Ms. Marvel star Vellani, she isn't going anywhere anytime soon and is set to make her next appearance as Kamala in The Marvels, which will be released in theaters next year. Ms. Marvel is now streaming on Disney Plus. This drama was able to achieve the highest viewership ratings (9.8%) of any drama in MBN history, and yet, if you read the reviews and comments on MDL, you will sense the opposite sentiment. As for me, I liked this well-written, intelligent and enlightening show that showed me another aspect of Korea's historical culture. Bossam was a custom in the Joseon period, in which a single man himself or through a hired hand kidnaps a widow by wrapping her up in a blanket at night and then makes her his wife. During those days, it was a way of getting remarried and an opportunity to get a new life for the widow who was obliged to live alone after her husband's death. Based on this custom, the drama unfolds the uncliehed love story between the leading couple as they experience conflicts between social classes and families and survive being in the center of political struggles and turmoil.Why highly entertaining?From the get-go with the opening scene illustrations, I found this drama to be quite unique. It is a historical drama accompanied by non-traditional touches like the selection of eclectic songs and background music. The music producers deserved credit for being prolific and delivering quality tracks. The OST or BGM that underscored each scene was truly fitting and had elevated it to the next level for me. Furthermore, the cinematography and directing were also a big part of the show's appeal, as one can tell that a lot of thought was put into each scene to evoke the necessary emotion and feeling. Every episode was nicely shot and expressed. Even details like how the hanbok skirt formed in a perfect circle surrounding a sinking woman was impactful. The settings and landscapes were lovely, like works of art. Visually, it was a treat to watch this show. The costumes and makeup also stood out for me because the show did not go for an idol drama feel with overdone makeup or glaringly obvious colors. The actors looked normal, good-looking nonetheless but refreshingly ordinary. Acting-wise, I am impressed. I have heard of Jung Il Woo's ability but this is my first drama of his and I am blown away. He clearly has the experience and acting chops to pull off a complex character like Ba Woo, born from nobility but grew up a street rat. Shown initially as a rogue who was obviously a little damaged, it was also quickly apparent that our male lead, the heroic outlaw, was a good and generous person at heart. Jung Il Woo's micro-expressions were on point, and there was an underwater scene where he executed the scene perfectly by just his expression alone. His visuals are not my usual preference, but in this show, in that persona, Il Woo just exuded manly sexiness. Shin Hyun Soo's character, Lee Dae Yeop, got a lot of hate for being the clingy second male lead who could not move on. However, I had a soft spot for Dae Yeop, especially after finding out his back story and romance with the Princess as well as his background. His actions may have seemed rash and selfish at first, but he never wavered from his desire to protect and ensure the happiness of the only one he loved. I had high hopes for his character development, and he did not fail me up to the finale. My heart ached for him a lot, and Shin Hyun Soo was brilliant in portraying this lost soul. With his eyes alone, Hyun Soo showed the hopelessness and defeat that Dae Yeop must have felt, trapped with no way out between his family, duty, love, and his own desires.Kwon Yu Ri, however, is the show's biggest hidden gem. Her acting as Soo Kyung/Princess Hwa In, a demure, well-bred but humble Princess who was also passionate, brave, and intelligent, left a firm impression. Knowing that she is a Girls' Generation member, I was not prepared for her wonderful performance. In a way, this drama was also about how the Princess chose her own happiness by freeing herself from the societal rules and obligations, and Kwon Yu Ri portrayed this character's growth well. I appreciate the female empowerment theme featured in this show, like when Ba Woo constantly praised and respected Soo Kyung's intelligence and strength.With the addition of seasoned actors like Shin Dong Mi, Song Sun Mi, Seo Beom Shik, Yoon Joo Man, Kim Tae Woo, Lee Jae Yong, and Lee Joon Hyuk, you have a cast that was able to deliver the story effectively. The child actor, Ko Dong Ha, who played Cha Dol, has potential as well.I love that the characters were shades of gray. We had the antagonists who felt justified in their actions, people on both sides helping each other for justice and principles, and there were the protagonists who made bad decisions, said and did things they did not mean in the heat of the moment. The show scored points with dynamic characters who struggled with their actions, who were not always clear if they were doing the right thing or what the right thing even was. To me, the show's strongest point is the way it executed the plot. I liked how the drama encouraged and engaged the viewers' imagination. It was my imagination that filled in and enriched what the show's visuals or soundtrack both concealed and alluded to at the same time. At least, I prefer to think that what was left out was not a mere lack but instead a conscious artistic act of intentional omission and suggestion. Coupled with somewhat predictable plot twists but, when revealed, were simply shocking in terms of magnitude and nature, the result was a story that kept me engaged from start to finish, with each episode leaving me eager for the next one. Why frustrating?Even though I appreciated the moments of omission and suggestion, the conspicuous use of them for the romance between Ba Woo and Soo Kyung left me wanting for more. The chemistry between those two was palpable, and I wanted to see more than hugs. Ideally, I would have preferred more tantalizing or passionate scenes, but if not those, then at least some other obvious display of affections that provide the anticipation and build-up that one usually seeks in a show with a romance tag. That said, I did find the scenes between the leads incredibly romantic, especially with the setting, music, and dialogue. There was a dignified and pure way about how their love for each other was shown, and I did believe that they truly loved each other. I also like the phrase they used for each other "saranghae yeon-mohadae ()" which means to love and long for someone. Seeing them together left a good feeling and I was satisfied with how they ended. With the romance underplayed during the second half, the show somewhat got derailed by the heavier focus on the palace and court politics. The villain, Lee Yi Cheom, constantly got on my nerves with his audacity and arrogance, but really, this was a good thing because it showed how terrific the writing was. I was glued to the screen, on the edge of my seat, wondering what was going to happen to the OTP and the other good guys. Had I not wanted more romance and pleasant "slice of life" episodes featuring the main couple, I would have appreciated the political shenanigans even more. OverallI would rewatch this drama since there were many nuances and subtlety that I may have missed the first time. I also enjoyed the story and characters enough to watch them another time, although I am unsure if I want to feel Dae Yeop's pain again. I do recommend that you try this drama out and see for yourself. Thematically for me, Bossam: Steal the Fate is a show that encapsulates life in many aspects and topics. It touches upon self-identity and personal growth, love (romantic and familial), respect and loyalty (to self, family, country, and principles), politics, societal obligations and problems, the balance of power and inequality, friendship, and more.
