Note Names Overview

The image displays musical notation for three different clefs, illustrating how note names are assigned to specific keys on a piano keyboard.

- Treble Clef:** Shows a five-line staff with notes G, A, B, C, D, E, F, G. The notes G, B, D, F are labeled as "Every Good Boy Does Fine" (EGBDF). The notes A, C, E, G are labeled as "FACE".
- Bass Clef:** Shows a five-line staff with notes G, F, E, D, C, B, A, G. The notes G, B, D, F, A are labeled as "GBDFA". The notes A, C, E, G are labeled as "ACEG", with sub-labels "All", "Cows", "Eat", and "Grass" pointing to A, C, E, and G respectively.
- Grand Staff:** Shows a grand staff with two staves. The top staff has notes G, A, B, C, D, E, F, G. The bottom staff has notes G, F, E, D, C, B, A, G. The combined sequence of notes is labeled as "G A B C D E F G A B C D E F G A B C D E F".

Similar to the other apps, you can select what level you're at as a piano player. Classical? When the notes arrive on the keys of this piano, you must play the same notes on your connected piano. The advantage of this software lies in the interaction that the developers have set up between the learning interface and the connected piano. Skoove is really geared towards beginners as the app doesn't just show you the notes and an animated keyboard, it shows you an actual piano player playing along from above. It's up to you to choose the ones you like the most and compose with them! The user interface of the Virtual Piano MIDI software. Recommended guide: The 8 best piano exercises to improve your piano playing. With this free guide, you can learn the best piano exercises to warm up, improve your technique and rhythm (chords & scales). But we can't take in-person lessons because of Covid-19 and the social distancing requirements. Our options at the moment are pretty limited. This is an excellent feature that helps you get used to playing with other musicians using backing tracks. Free lessons available? Skoove listens and reacts in a very personalized way to how you're playing. Does it have an in-app keyboard? You're not just learning in a vacuum, as you would with YouTube or other online piano apps. Yes, one week with CC.Song selection: A mix of modern and classic. Lowest plan: \$119.99/year or \$9.99/month. Highest plan: \$59.99/3 months or \$19.99/month. Power feature: Singer Duet is a nice feature to help players work on timing but it takes a bit of getting used to. Yousician is one of the more well-known music learning apps. It helps foster the connection that you had to music when you were younger by using songs that fuelled your passion for music in the first place. The beginner section includes an impressive 84 lessons, so plenty to choose from when you start. Free lessons available? This is of course our own opinion, but it will allow you to have a first overview of the good software that are developed and offered on the internet. Objective: learn piano with the songs you like. La Touche Musicale is an online software that allows you to learn your favorite songs on the piano. Folks who used to play, but want to get back to it? To make sure you have a good number of options to choose from, we looked at and reviewed these seven apps to help you become a pianist online. Ready? Feedback needs to be immediate if you really want lessons to stick. On the other hand, piano apps provide you with everything you need in one place and you don't have to constantly pause (or rewind). Modern? Not only is the video content taught by Mr. Hoffman, but you can also interact with the Hoffman Academy right as you go through the lessons – they seem to be online most of the time, as they respond pretty fast. Unlike the other platforms we have looked at, this is the only one that does not have an app that comes with it. You can work with both a real piano or use an on-screen keyboard while you're learning, which is perfect for someone who wants to see if the piano is right for them. Unlike some apps, it starts off using songs that are familiar but not contemporary. Home > Articles > Progressing on piano > The 10 best piano software Piano software: the 10 best on the market. You want to use the best piano software to learn the instrument alone or to compose? With this software you can hear the best sounds of the American singer being played. Feedback from the app? It can be used on iOS and Android devices, as well as a computer with a mic. The program provides a dashboard that allows you to control settings like tempo. That modern touch (which includes everyone from Bill Withers to The Beatles) is nice in a world where every other app wants to start you with Ode to Joy. Skoove offers you the opportunity to play along with a band at the end of a set of lessons. Even if you manage to stick with lessons long enough, it can take years before you realize the practical aspects of music theory. However as adults, learning to play an instrument like the piano is one thing that sits close to the top of the list of things that most of us would like to do. This simple progression eliminates that surprise of having to suddenly adapt to playing a song at full speed. You can use either your mouse or your keyboard to press the keys. Its main originality lies in the fact that the tool reproduces the soulful sound of the artist Alicia Keys when she plays the piano. Intuitive, you just have to create your account and connect your piano in MIDI-USB to be able to learn hundreds or even thousands of musics. The notes are symbolized by sticks that descend on a virtual piano. People who've played a little? The trick when it comes to learning the piano (or any instrument) is to find something that teaches you in the way you learn best. Picking the piano learning app that's right for you. When it comes to choosing the best way to learn to play piano, it helps to approach the decision the same way you'd look for a teacher. It also introduces technical concepts and music theory when kids are ready, not when the teacher says it's time to learn arpeggios. Hoffman Academy is a great platform for people who like to have human interaction. This gives you the ability to explore in-depth before committing. Most classes in Playground Sessions are provided by instructor David Sidus who walks you through each piano lesson before you try things for yourself. Yes, one week with CC.Song selection: It's a great balance of modern and classic songs. Lowest plan: \$89.99/year or \$7.49/month. Highest plan: \$19.99/month. Power feature: Songs you recognize and love. Simply piano – very popular and gives a solid foundation. Simply piano is available for both iOS and Android devices as an app that contains everything you need to learn piano. The software will wait for you to play the right notes before moving on to the score. All in all, Piano Booster is a very good program that will satisfy you if you want to learn scores. It is this sound that has allowed the internationally recognized artist to shine and win several Grammys. Alicia's Keys was sampled from the artist's own playing and recorded in her studio. However, the paid plan gives you access to songs across all your devices and you never lose access to the songs. They have run a strong campaign targeting anyone who searches for music tutorials on YouTube. You can also add sound effects to enrich the piece you create. Between work, kids, and daily chores, most of us never manage to find the time to sit down and practice. The kicker here is that a lot of us have significantly more free time than ever. Feedback is never going to happen from YouTube videos. Most of the time, if you want to know what notes are being played, you have to go to the teacher's website and download the sheet music. These let you focus on certain skills that you feel are either important or need work. In some ways Yousician feels a bit like playing Guitar Hero in the way it runs you through the lessons and teaches you how to "hit notes" in an engaging way, making it fun for beginners. Free lessons available? 4 – Synthesia Objectives: learn piano with the songs you love. Synthesia is a piano software that allows you to learn the instrument easily. But frequently, their musical education stopped with piano lessons they took as kids. However, they don't just throw you into it. This method of teaching piano that doesn't just rely on memorization, rather, it provides a complete online musical education. 30 day trial with a CC.Song selection: Runs the gamut from Christian gospel to rock music. Lowest plan: \$59.88/year or \$4.99/month. Highest plan: \$39.99/month. Power feature: Workouts. Piano academy – a great way for kids to learn online. Hoffman Academy uses what's known as the Hoffman Method and is very much geared towards children. The Hoffman Method relies on a multisensory technique that taps into children's natural curiosity and helps kids connect with music and learn to play online. Even searching for piano lessons on YouTube results in an endless number of tutorials, tips, and tricks that are designed to suit every level of player from all manner of piano teachers. Interface of the Piano Booster software. 7 – Toontrack EZKeys Objective: simulate playing a Steinway & Sons model. Using video lessons is a great teaching style for visual learners to see when to play the notes as they develop their own internal sense of timing. Beginners will also appreciate the way Skoove provides feedback. 5 – Free Piano Objectives: compose music with a MIDI keyboard. Free Piano is a software that allows you to connect your piano or keyboard in MIDI in order to transmit the data from your piano to your computer. They also give you the option of logging in through a computer using either the mic or a MIDI cable. You get an overview of the first notes you'll need to learn (middle C, D, E) and it progresses nicely up through to F and G. Native Instruments Alicia's Keys : a good piano software. 9 – MIDI piano Objective: to play MIDI data on a piano. MIDI Piano is a very complete program that allows you to play with MIDI data to produce the sounds you want. Once this is done, you interact with the virtual piano and can record your composition or interpretation. Not everyone loves classical music. Some are expensive, others of mediocre quality. Toontracks EZKeys piano software interface. Do they offer free lessons? Features: What features do they offer? Yes, one week with CC.Song selection: A wide range, from classical to modern, and everything in between. Lowest plan: \$199.99/year or \$16.99/month. Highest plan: \$39.99/month. Power feature: Workouts. Piano academy – a great encouragement for kids. Piano Academy has been around since 2018 and provides a solid app that helps introduce people to online piano lessons. Having a well-trained ear can be something that separates you from being someone who knows how to play the piano from being a true pianist. At Skoove, we want to empower you with all the skills you need to master the piano, no matter how you define master. You can learn using your phone (iOS or Android), iPad or computer, and can connect with Skoove using either a microphone or MIDI cable. Skoove does a nice job of introducing beginners to the piano, starting with middle C. Once you've done that, learning via YouTube involves a lot of watching and pausing, watching and pausing, rewinding and watching, then pausing again to try and figure out what just happened. And if you need a bit of feedback, you are stuck. For example, you can import a MIDI file and see it being played on the piano in real time, with the keys being depressed. OnlinePianist offers a platform for song tutorials that you can use once you know how to play the piano basics. No, but the free plan is very generous. Song selection: Mostly geared towards children, with songs like Hot Cross Buns and Mary Had a Little Lamb. Lowest plan: \$179/year or \$18/month. Power feature: Great for kids with a lot of free material. Apps for online piano lessons vs. Yes, one week with CC.Song selection: Everything from popular hits to cartoon theme songs. Lowest plan: \$59.88/year or \$4.99/month. Highest plan: \$39.96/3 months or \$9.99/month. Power feature: A great selection of songs to learn – once you know how to play. Playground sessions – structured piano lessons with well-known instructors. Playground Sessions is a powerhouse of a piano app that was put together by legendary music producer Quincy Jones and features lessons by notable pianists like Harry Connick Jr. Like other platforms, you can use it with your computer, as well as on an iPad. Playground Sessions provides a 30-day free trial, with a credit card. Then you practice it. If the method is based on the reading of scores, the software has a practical approach to the piano. It gives you the ability to break the song down by individual hands, so you can first learn what the left hand is doing, then the right, and combine them in the end. OnlinePianist has an excellent selection of songs to choose from, ranging from popular artists like Taylor Swift to anime theme songs. This training helps you gain a deeper understanding of music and makes playing, and listening to music, that much more enjoyable. Skoove makes it easy for people who want to learn but struggle to find the time in their hectic lives. Indeed, the software waits for you to play the right notes before moving on to the next ones. Your ears play a huge part in learning piano – or any other instrument. None available on the free plan. Lowest plan: \$27.99/month. Highest plan: \$10.99/week. Power feature: It's very engaging for kids. OnlinePianist – a focus on great song selection. OnlinePianist is less of an online piano lesson app and more of a way to learn songs online. What about sheet music? Song selection: Will you be playing cool, modern songs or just the classics? It can be done but it's cumbersome and doesn't help you learn efficiently. It allows you to learn to play the piano in a relatively easy way. You can even find the odd lesson from well-known players, too. The problem is that once you get past the sheer number of options, you have to find something that is suited to your level of playing, your learning style, and that you can enjoy. But online lessons come to the rescue. You can connect your keyboard to your computer and play notes and chords interactively. The software is mainly based on MIDI (Musical Instrument Digital Interface). How extensive is their song catalog? Ease of use: Is it easy to get started or are there a lot of steps between you and the piano? Who could use it: Is this for beginners? You've come to the right place! It is always difficult to find the right tools when you start learning the piano or want to develop your skills in musical composition. The interface is composed of sticks representing the notes on the top, which scroll horizontally and arrive on a virtual piano. These are standard songs for beginning players. Piano Academy is an app geared towards kids that covers the fundamentals well and gives a solid foundation of piano basics. Free lessons available? Like many tools of this classification, you can connect your piano or keyboard in MIDI to interact with the software. Other features allow you to customize your learning: speed of the piece you are learning, support for rhythm and synchronization, and much more. The software can also tell you how to position yourself correctly. Our focus isn't just on understanding the mechanics of how to play the piano but also on the ear training that comes with it. Good. Memories of stern teachers, learning how to read sheet music, lectures about posture, and spending hours and hours practicing scales and theory can suck the fun right out of learning. Moreover, there are a lot of them on the market and, as you can imagine, not all of them are equal. If you've been googling for online piano lessons, chances are you've seen them. And, to be fair, it's an amazing online resource. Yes, one week with purchase of a monthly plan. Song Selection: A mix of popular music and classical music. Yes. Free trial? It is nice that you get the same selection of your favorite songs on the free tier as you do on the paid plans. Then you play with the band. Life is busy. As with La Touche Musicale (which works online), you can import your own MIDI files to play them on the piano. If you want more information about this tool, you can read our article dedicated to Synthesia. First, they demonstrate the song. On the other hand, some software are either free or inexpensive and allow you to acquire the basics in what you are looking for. In order to save you time in your research, we have listed in this article our selection of the 10 best piano software on the market. It feels very much like a game. Once you have completed the lessons, you get to the Singer Duet feature. Starting with popular songs like Twinkle Twinkle Little Star and If You're Happy and You Know It. But that depends on your preferences more than anything else. To learn more about this, please see our article on piano fingering. Everyone Piano is a very practical tool for those who want to start learning piano. If you are interested in more tools similar to this one, you can check out our article about apps offering online piano lessons. Skoove gives you access to all styles of music. What about music theory? The combination of video lessons and reading sheet music – so you can also understand music theory as you go along – is probably the best way to take online piano lessons. Most piano learning apps offer users a way to learn and explore the piano using a computer, tablet, or smartphone, regardless of whether you're a beginner or someone who's played for years. Indeed, as for the other tools of this classification, you can connect your piano or your keyboard in MIDI to your computer. Starting your learning journey off with Ode to Joy probably isn't going to have the same impact as a song like Lean on Me would. YouTube. Most people go straight to YouTube these days when they need to learn a new skill. Yousician is available for Android or iOS tablet or phone. These are the three most common scenarios that lead adults to pick up an instrument again. You took some lessons as a kid and would like to try once more. You never learned how to play but always wanted to. You took lessons for a while, now you want to return to it and upgrade your skills. Unfortunately, time is the thing that always ends up getting in the way. The early beginner We Will Rock You. Context of use and learning interface of the Synthesia piano software. Something budding online pianists will appreciate. Free lessons available? It works by using the microphone to listen to the notes that you are playing or by connecting to the device via a MIDI cable. You can either figure things out for yourself on YouTube or you can use an app like Skoove that provides online piano lessons that can help you learn piano in the way that suits you best, without having to take in-person classes. Best apps for online piano lessons in 2022? To help you figure out which platform might be best for you, we've put together a list that evaluates the most popular apps for online piano lessons. Here's what we looked at for each platform. Price: What's their lowest-priced package? Forget about online versus offline lessons. If you like having that human element, Hoffman Academy might be for you. Free lessons available? It is a software whose ergonomics are quite good. No. Free trial? You can, as on La Touche Musicale, connect your piano to your computer so that it is recognized by the software. Piano lessons are much more than just song selection. This feedback can be crucial to developing a true understanding of how to play the piano. What's nice is that Skoove pairs each piano lesson with a familiar song that isn't classical music. It is done entirely on the computer and is the closest to having an actual piano teacher. Yes, with ads. Free trial? Go to La Touche Musicale software. Video presentation of La Touche Musicale. The song catalog of the piano software La Touche Musicale. Jazz? Everyone Piano learning interface. Recommended guide: The 8 best piano exercises to progress. With this guide, you can learn the best piano exercises to warm up, improve your technique and rhythm (chords & scales).>> Discover the guide Music is one of those things that can catch our attention at a young age and never really let go.
